

Kiosk 27" portrait

Self-service reception – hotel, golf, fitness, ..

Indoor self-standing payment machine Kiosk 27" is scalable and ideal for hotel receptions, restaurants, or other shops. It ensures partial or full autonomy service.

The machine presents savings in personal expenses and a quick return on investment.

The whole solution is mounted with industrial components, which ensure QR scanning and thermic print.

Optional is an ID card scanner, unattended terminal, dispenser, keybox and other peripherals.
